# What is Affiliate Marketing?

Generating an income by recommending other people's (or company's) products.

You have:

1. Audience
2. Authority
3. Trust

# INFLUENCER MARKETING

# A Framework for Influencer Marketing

## 5-Step Action Plan & 9 Expert Tips

- 1 Define Your Online Audience**

Influencer marketing starts by first identifying your target customer and understanding who impacts how they discover, evaluate, decide and buy.
- 2 Discover The Right Influencers**

Influence is contextual so you will need to find people who produce and share content that can impact your business or your buyer's decision-making process.
- 3 Monitor Influencers for Opportunities**

Listen to your influencers and monitor their content. Ask yourself: What topics do they write about? What do they share? What questions does their audience ask?
- 4 Take Action & Engage**

Start building a relationship with simple actions (follow, share, link). Get to know them, build trust, then plan initiatives that will let you work together.
- 5 Measure Your Results**

Keep track of the relationships you are building and how they translate into tangible events (visits, introductions, mentions, leads). Learn and iterate.

# What Is Referral Marketing?

**THIS IS REFERRAL MARKETING**

Referral Marketing is deliberately encouraging your customers to tell their friends about you.

# OVERVIEW OF REFERRAL MARKETING PROGRAM

1: Create a Compelling Offer

2: Promote the Program

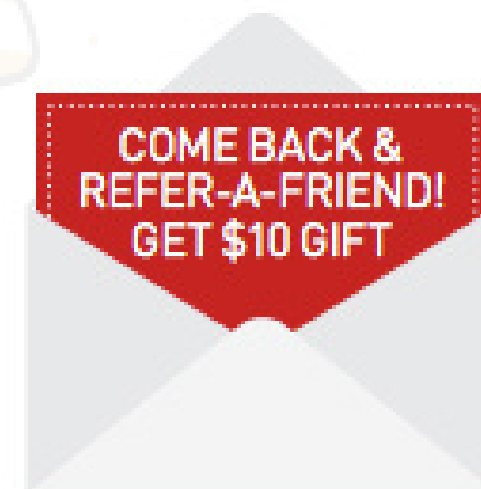

3: Make it Easy for Advocates to Refer

4: Leverage Social Graph

5: Keep it Top of Mind

6: Monitor and Optimize

How do you acquire users?

# The 5-step framework of web analytics

# Web Analytics

- Web Analytics is the process of analyzing the behavior of visitors to a Website.
- Enable a business to attract more visitors
- There are at least two categories of web analytics:
  - **Off-site web analytics**
  - **ON-site web analytics**
